水滴

构造曲线

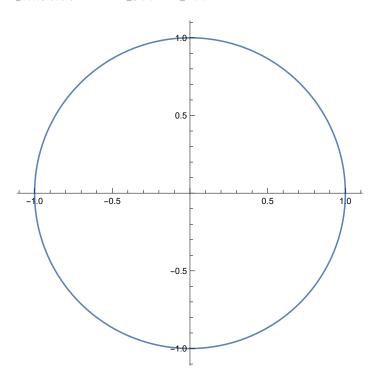

我们先来画一个圆

In[•]:=

ParametricPlot[$\{Cos[v], Sin[v]\}, \{v, 0, 2\pi\}$]

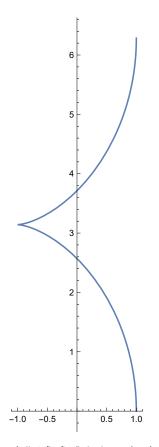

绘制参数图

上余弦 上正弦

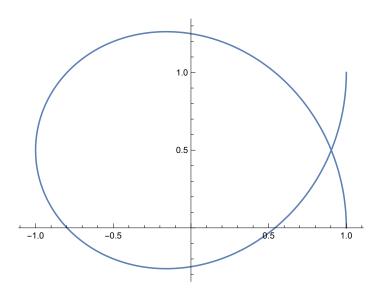

然后对y轴进行变形,加上变量v,使其向上偏移

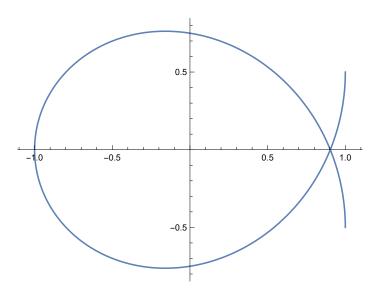

我们试试减小上一步对y轴的改变

In[•]:=

这下有水滴的样子了,将其向下平移0.5,对齐到原点

再修剪一下,

先计算上图的交点对应的v值,需要注意条件 $0 < v < 2\pi$ 是必要的,否则Mathematica无法求解

In[•]:=

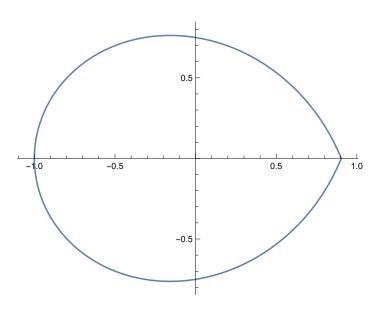

Solve
$$\left[\left\{ Sin[v] + \frac{v}{2\pi} = \frac{1}{2}, 0 < v < 2\pi \right\} \right]$$

Out[•]=

$$\Big\{ \{ \mathbf{V} \to \pi \} \text{ , } \Big\{ \mathbf{V} \to \boxed{\text{ } \emptyset \text{ .444...}} \Big\} \text{ , } \Big\{ \mathbf{V} \to \boxed{\text{ } \emptyset \text{ 5.84...}} \Big\} \Big\}$$

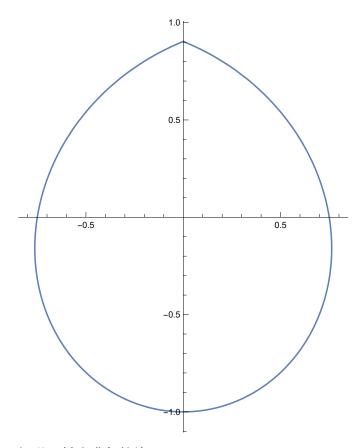

修改变量v的开始和结束

$$In[\bullet]:=$$
 ParametricPlot $\left[\left\{ \begin{array}{ll} \cos \left[v\right], \sin \left[v\right] + \dfrac{v}{2\pi} - 0.5 \right\}, \left\{v, 0.444, 5.84\right\} \right]$ 上注弦 $\left[\begin{array}{ll} \cos \left[v\right], \sin \left[v\right] + \dfrac{v}{2\pi} - 0.5 \right], \left\{v, 0.444, 5.84\right\} \right]$

交换x和y轴,让它立起来,就能得到水滴曲线

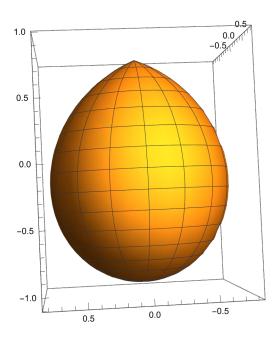

ParametricPlot
$$\left[\left\{\begin{array}{ll} Sin[v] + \dfrac{v}{2\pi} - 0.5, Cos[v] \right\}, \{v, 0.444, 5.84\} \right]$$
 上余弦

好啦,基本准备就绪

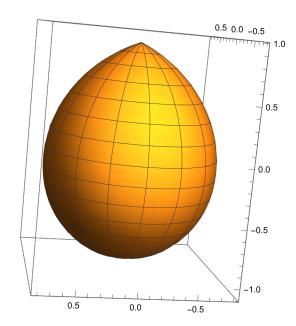

绘制3D图形

接下来只需将曲线绕y轴旋转一下就能得到一个3D的水滴, 略微注意下v的取值范围

当然使用ParametricPlot3D也是可以的

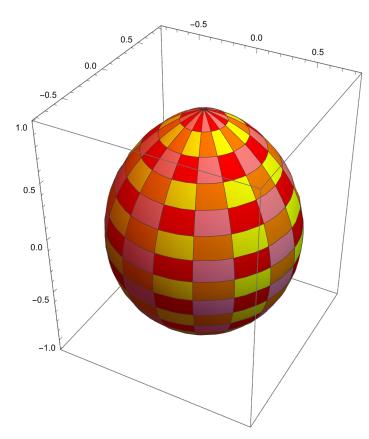

ParametricPlot3D
$$\left[\left\{ \cos\left[\mathbf{u}\right] \left(\frac{\sin\left[\mathbf{v}\right] + \frac{\mathbf{v}}{2\pi} - 0.5}{\pi} \right), \frac{\sin\left[\mathbf{u}\right] \left(\frac{\sin\left[\mathbf{v}\right] + \frac{\mathbf{v}}{2\pi} - 0.5}{\pi} \right), \cos\left[\mathbf{v}\right] \right\}, \left[\frac{\sin\left[\mathbf{v}\right] + \frac{\mathbf{v}}{2\pi} - 0.5}{\pi} \right], \left[\frac{\sin\left[\mathbf{$$

给水滴上色

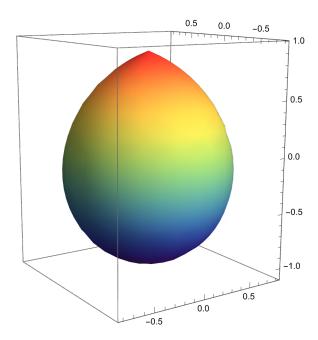

RevolutionPlot3D
$$\left[\left\{\begin{array}{ll} Sin[v] + \dfrac{v}{2\pi} - 0.5, Cos[v] \right\}, \{v, 0.444, \pi\}, \\ \text{绘制三维旋转图} \end{array}\right]$$

Out[•]=

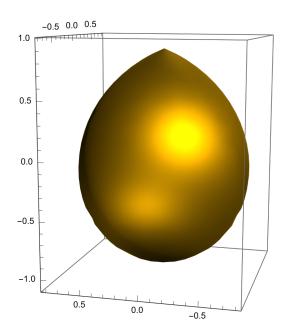

彩虹水滴

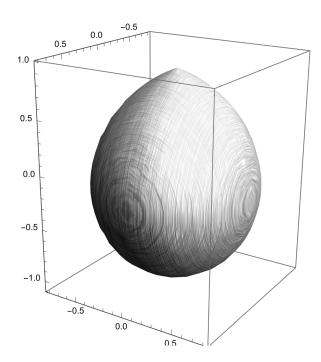

$$In[\cdot]:=$$
 RevolutionPlot3D $\left[\left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\pi} - 0.5, Cos[v] \right\}, \{v, 0.444, \pi\}, \\ \\ \angle \text{ 会制三维旋转图} \end{array} \right]$

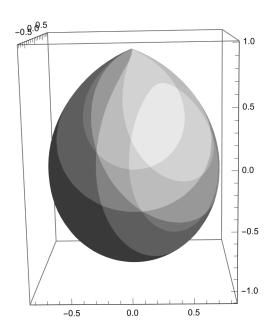

金色水滴

素描风格

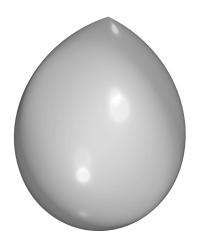

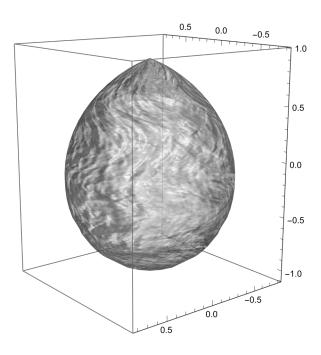

RevolutionPlot3D
$$\left[\left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll} Sin[v] + \dfrac{v}{2\,\pi} - 0.5, Cos[v] \right\}, \\ \text{ } \left\{ \begin{array}{ll$$

水滴本滴
